

Dear Homeowners:

We now have a new Landscape Maintenance Service Company at Natures Cove. They will be responsible for cutting the grass in the common areas and maintaining our new landscaping, flower beds and entrance medians as well as making sure the sprinkler system is working properly at all times.

If any homeowner needs grass cutting or wants to upgrade their landscaping, please contact Hugh Smith Enterprises and he will give you an estimate based on your needs. His phone number is 954-214-6051.
